TRENDS.COM

Canadian Mortgage Trends (CMT) is Canada's preeminent mortgage information resource with over 550,000 annual readers.

CMT's popularity stems from award-winning down-to-earth content written by mortgage professionals, as opposed to journalists from "outside the trenches".

CMT articles are authentic, objective and straightforward – essential qualities for busy mortgage consumers and industry professionals.

Content ranges from rate advice and mortgage strategies to insider interviews and new mortgage reviews. The majority of CMT's content isn't available anywhere else.

As an advertiser, your message will appear amid this highly sought-after information.

Statistics and Demographics

On average, CMT hosts over 90,000 monthly impressions and 30,000 unique visits. 53% of page views are from repeat visitors, reflecting considerable reader loyalty.

Readership consists predominantly of mortgage consumers and personal finance enthusiasts, as well as an audience of mortgage professionals that numbers in the thousands. CMT's subscribers include executives, brokers and staff from virtually every major lender and brokerage firm across the country.
